The Vanguard Target Retirement funds and flexPATH Index Moderate R1 funds are target-date funds. The target-date is the approximate date when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative as the target-date approaches by lessening your equity exposure and increasing your exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income.

A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals.

The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. Investments in the funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality.

Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus and, if available, the summary prospectus, contain complete information about the investment options available through your plan. Please call 877-778-2100 for a free prospectus and, if available, a summary prospectus that contain this and other information about our mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.

The Guaranteed Income Fund (GIF) is a group annuity product issued by **Prudential Retirement Insurance and Annuity Company (PRIAC)**, Hartford, CT. Amounts contributed to the contract are deposited into PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC. PRIAC periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract. Past interest rates are not indicative of future rates. This product is neither a mutual fund nor a bank product. PRIAC obligations are not insured by the FDIC or any other federal government agency. Contract form #GA-2020-IA-0805 or state variation thereof.

Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue plus the foregoing compensation if your plan has agreed to pay contract charges--which are sometimes paid with respect to plan/participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this and other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise, there is a loss.

Frequent exchanging between plan investment options may harm long-term investors. Your plan or the plan's investment funds may have provisions to deter exchanges that may be abusive. These policies may require us to modify, restrict or suspend purchase or exchange privileges and/or impose redemption fees.
