## ACTION REQUIRED

On December 21, 2020, the Wayne County Employees' Retirement System (WCERS) mailed out its [Information Verification 2021 Form](#) to 4,778 pension benefit recipients as per its Policies and Procedures. The purpose of sending this form is to ensure the accuracy of the information the Retirement System has for each recipient and to ensure that there is no fraud being perpetrated against the individual or the Retirement System. This process is the fiduciary duty of the Retirement System and its commissioners. As of the writing of this publication, **16 recipients have not returned a completed form to our office.**

As a result, the Retirement System has suspended the pension payments of those 16 recipients for noncompliance and holds their checks in trust until the form is returned to our office. To achieve a 100% compliance rate, our office has compiled a list (**two pages**) identifying the 16 recipients we are trying to locate. **If your name is listed**, please complete the Information Verification 2021 Form and return to our office via:
